## MiLC Anti-Corruption Official

Minor League Cricket ('MiLC') is committed to working with USA Cricket and the ICC Anti-Corruption Unit to raise awareness of the corruption risks across all levels of cricket in the USA. Advancing technology and increasing popularity have led to a substantial increase in the frequency and sophistication of betting on cricket matches around the world. Furthermore, the development of new betting products, including spread-betting and betting exchanges, as well as enhanced accessibility to betting markets, have all increased the potential for the development of corrupt betting practices.

The primary role of MiLC Anti-Corruption Official at each venue is to oversee the implementation of and compliance with all MiLC anti-corruption measures, including the creation of designated player and match official areas, restricting the use of communications equipment, and ensuring only authorised people can access the designated player and match official areas.

### Key Duties & Responsibilities:

As MiLC Anti-Corruption Official, duties and responsibilities include:

- Identify the designated player and match officials' only areas ('PMOA') at the venue, and ensure the PMOA is clearly visible to all attendees;
- Oversee the collection of mobile communication devices from players, coaches and support staff upon arrival at the venue. No mobile phones or electronic communication equipment will be permitted in the PMOA;
- Ensure that no unauthorised individuals enter the PMOA;
- Ensure that players, coaches, support staff and match officials do not leave the restricted PMOA or Playing Arena at any time prior to the conclusion of the match;
- Ensure that appropriate signage is displayed prominently at the venue on match-days; and
- Develop and understanding of the USA Cricket Anti-Corruption code.
